

Inspector Instructions

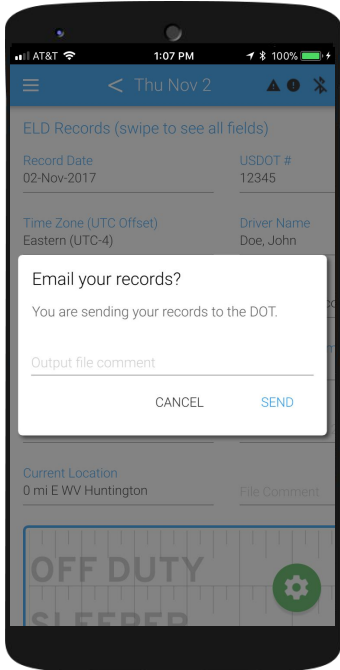

On the roadside inspection screen, you will be able to see the driver's log with all of the information needed. Use a finger to swipe up, down, left, and right to view the complete record.

Clicking the gear icon at the bottom right corner will open a menu that allows you to:

- Select dates to view previous logs for the driver
- Toggle to view any unidentified driver logs that have been recorded
- Email driver logs to the DOT or send driver logs to the DOT web server

Emailing Logs

The “Email Logs” button allows you to send logs for today and the last 7 days.

You can include a comment or routing number for the file.

Logs will be sent to fmcsaeldsub@dot.gov as required by the ELD mandate.

Blue Ink Tech's ELDs are FMCSA registered as:
BITELD (model #BIT17001)
BITOBD (model #BIT17002)
See <https://csa.fmcsa.dot.gov/ELD/List> for more details
